Feasibility of a Community Center

A modern Multi-Generational Community Center should be based off the needs of the local community!

The 2018 Parks & Recreation Comprehensive Plan resulted in 80% respondent support for exploring the feasibility of an indoor recreation facility serving all ages of the population.

Study Purpose (2 Phases)

Phase I:

Is a community center needed and desired by the community?

Phase II:

If yes, what should the community center look like (programming, location, operations, funding, etc.)?
