

Q1 Please select your preferred playground option:

Answered: 213 Skipped: 5

ANSWER CHOICES	RESPONSES	
Option A	34.27%	73
Option B	24.88%	53
Option C	40.85%	87
TOTAL		213

Q2 Do you have any other thoughts/ideas that you wish to share about the three options?

Answered: 114 Skipped: 104

#	RESPONSES	DATE
1	I was disappointed in all of these. They seemed to not be made as well as what is already there. Plus the kids have lost a climbing wall.	5/31/2021 6:04 PM
2	Additional swings or a larger climbing area would be a good option. Check spider web large climber at Swan Creek park in Toledo Ohio. Similar to large climber at Tremont playground but easier access from ground level to slide area.	5/30/2021 10:41 AM
3	All three options look better than what happened at Westover Park. That's the worst playground I've ever seen.	5/30/2021 9:53 AM
4	Please do not take out any of the mature trees that provide shade to the park. That is the best part about this park.	5/30/2021 8:46 AM
5	No	5/30/2021 12:23 AM
6	No, they're all really great. Excited for the improvements	5/29/2021 10:15 PM
7	Keep current playground	5/29/2021 6:45 PM
8	Seating areas	5/29/2021 5:06 PM
9	I like the addition of the swing for children with special needs	5/29/2021 4:34 PM
10	No	5/29/2021 3:46 PM
11	I like the current park and don't want you to change it. -Kaylie age 8	5/29/2021 3:29 PM
12	Having the ability for the play structure to not get so hot to the touch during the warmer months	5/29/2021 3:04 PM
13	Keep the trees for shade	5/29/2021 1:55 PM
14	This park has great shade and I hope it still will with the new design. Even a huge shade cover like at the pool would be great. Kids also love being able to bike right up, so I hope the sidewalk stays or is remade. Thank you.	5/29/2021 1:44 PM
15	We like the other options too (especially the big slides), but my daughter really wants monkey bars so we are voting for Option B.	5/29/2021 1:25 PM
16	This park has been for little kids, so having a soft non dirt surface around the playground is a must.	5/29/2021 10:45 AM
17	My kids love monkey bars!	5/29/2021 10:20 AM
18	Redo the grass and backstop there at the same time?	5/29/2021 10:07 AM
19	Don't take down any trees.	5/29/2021 9:06 AM
20	I like that it seems to have different climbing choices you don't have at other playgrounds	5/29/2021 8:55 AM
21	In option C there were no stairs to get to the small double slide. Also I like option A but it does appear to be missing some fun monkey bars the other designs include. I like the climbing rock in A and the overall design.	5/29/2021 7:52 AM
22	They all lack natural elements. It would be better to have playgrounds that enhance the natural landscape.	5/29/2021 6:26 AM
23	Shade area for parents to sit	5/29/2021 5:17 AM
24	Change the color of the slides for option A to a more natural tone.	5/28/2021 11:54 PM

Oxford Park Playground Options

25	Fenced in somehow would be super helpful to those with little ones especially since Mcoy is often a busier road	5/28/2021 11:34 PM
26	More toddler safe area like it is now!	5/28/2021 11:27 PM
27	I really like the part of option B that looks a bit like an obstacle course but the slides on option A are the best	5/28/2021 11:08 PM
28	Please donate the old equipment to an underserved community - Burroughs elementary school on the Hilltop is a Good Option	5/28/2021 10:58 PM
29	Although my boys are a bit too old for it, they looove the dinosaur you sit on there now. We call it that dinosaur park. Would be cute to keep that! Also consider a couple actual parking spots? Can you make the chain link interactive - rock climbing wall or something with art like adding notes?	5/28/2021 10:56 PM
30	Please keep the green space and the trees!!	5/28/2021 10:17 PM
31	No	5/28/2021 9:26 PM
32	Please make sure it will appeal to younger and older kids.	5/28/2021 9:19 PM
33	N/a	5/28/2021 9:18 PM
34	I think it is really important that the toddler play area has a step option to access slides, and not just climbing ladders.	5/28/2021 9:18 PM
35	No	5/28/2021 9:14 PM
36	Monkey bars please! Shade please!	5/28/2021 9:09 PM
37	No	5/28/2021 9:06 PM
38	I like the slide options on option A, but I like the layout for option B. If there is a way to combine the two of them I think that would be the best option.	5/28/2021 8:49 PM
39	We are ok with the three designs, but there are no picnic tables and not enough benches for adults. No trees should be sacrificed, as they represent this unique UA area. Love the open area for community events (we are planning our annual July 4th picnic in the park and Halloween parade in the park). The best of this park is that there's no parking, people need to walk which makes it a more community park.	5/28/2021 7:21 PM
40	Kids always like to climb UP the slides. Be sure there is a slide where they can do this.	5/28/2021 7:21 PM
41	It's such a nice playground because of the shade - please leave as many as trees as possible!	5/28/2021 1:47 PM
42	Also like Option C Main concern is to NOT lose the mature trees that are around the playground area now. None of the other parks in UA have that amount of shade!! Would also like more seating/eating areas for the park. REALLY like that this park is small and accommodates very young to toddler to 10 years old. We live right down the street from the park and it TRuLY is a neighborhood park with lots of parents & children walking down to play.	5/28/2021 1:31 PM
43	Please do whatever you need to do to keep the trees. We only go to this playground because it is one of the only ones in the city with sufficient shade. Do not remove the trees!	5/28/2021 1:05 PM
44	Option A is #1, Option C is #2 .Option B is awful. One tiny slide for the "big kids" . Way too many swings. Kids don't really play on swings that much. I wish there were more interesting and dynamic play pieces that would appeal to all ages. I would also love to see more of a "natural play area" to the east of the playground, kids already play over there with sticks. It would be cool to develop that further. I also believe there is plenty of parking and a larger parking lot is not necessary. Save all the shade trees!	5/28/2021 12:42 PM
45	Love all the slides in A. Shade is important.	5/27/2021 9:20 PM
46	Keep trees in park since they provide great shade during summer. Also please leave open grass area for any field games. Create some parking by oxford dr side.	5/27/2021 4:48 PM
47	Please Please DO NOT cut the big tree on the West side of Oxford Park. If you need to make a parking lot, make it on the south side (Edgehill Road) of the Park. The big Maple on the West side gives a lot of shade in the evening on the play area.	5/26/2021 11:52 PM
48	I love this park and take my son and daughter here often. To be honest I am heartbroken that it	5/24/2021 11:16 PM

Oxford Park Playground Options

is changing because it is our favorite park in all of Arlington and we think the equipment is perfect for littler ones, whereas other parks have items that are too big/scary/dangerous. Please consider this when making renovations- particularly the proposed giant holes by the very high climbing wall/apparatus. I've always been glad that I don't have to worry at Oxford park about my toddler having an incredibly dangerous fall.

49	Please include the toddler spring riders that were highly voted for in the results. The park needs shade or else the slides are extremely hot and dangerous for the kids to touch. C are the best option/most unique but is still lacking something interactive like a music feature or spring riders. Please keep the large trees to shade and trim the overgrown honeysuckles on McCoy. And include more than one picnic table/more benches please. Option B would also be better if it had a covered tree house fort like option C. The older kids like a "hangout" fort like area like some of the other local parks.	5/24/2021 10:48 PM
50	Thank you for improving the park!	5/24/2021 5:22 PM
51	The entire project seems to be a solution in search of a problem, but my major concern is that NONE of the trees be removed, especially the large shade tree. The shade trees at Oxford Park are what make it such a pleasant place, unlike the barren, unpleasant wastelands that are the other parks in UA.	5/24/2021 2:44 PM
52	Please try to keep as many trees as possible. This is such a wonderful neighborhood playground that our family cherishes. We love the shade!	5/24/2021 11:58 AM
53	Sidewalk access from Edgehill to park is needed.	5/24/2021 9:59 AM
54	Put some comfortable parent seating in please!	5/24/2021 9:54 AM
55	A Splashpad somewhere would be great!	5/24/2021 9:42 AM
56	Do not take out mature trees	5/24/2021 9:34 AM
57	The best thing about the park is the shade. Please keep as many trees as possible.	5/24/2021 8:24 AM
58	The center climbing rock from option A would be good with option B or C as well	5/24/2021 8:19 AM
59	If it is possible to add more than 2 regular swings I would suggest a few more.	5/23/2021 5:36 PM
60	Basketball courts should be added somewhere in UA	5/23/2021 5:00 PM
61	Keep the natural shade at the playground!	5/23/2021 3:01 PM
62	Please keep the shade- it's the best!	5/23/2021 2:44 PM
63	I'm not a parent of a young child, though when our daughter was of the age to use this park we did often, as we reside on Fairfax Dr and have for 25 years. As many others, including very vocal parents of younger children living in this neighborhood have stated on the UA Facebook and in other forums, there doesn't seem to be an overwhelming need to replace any thing and they especially don't want to lose any trees. I am in complete agreement with leaving this park relatively the same. Perhaps replace the backstop, but if it's not broken, then there is nothing to fix! If some folks are screaming for new for the sake of new...I seriously doubt they will be the types that actually walk to and will use it...them there is also the coming rec center and probably less users of this favored little park in the future...use the money where it will do more good and where people are wanting a change...not where there is actually a voice for leaving this park alone and especially not taking down trees unnecessarily! Thank you!	5/23/2021 2:41 PM
64	Please do not remove old trees! Reduce the flooding that occurs and add a pathway to McCoy! People love that it's a very shaded park. Thank you!	5/23/2021 1:34 PM
65	no	5/23/2021 12:07 PM
66	I've seen concerns about potentially cutting down trees. I don't want any trees cut down for new park equipment. It would be nice if option C could be built around any existing trees. We are new to the neighborhood, so we were not given the initial opportunity to comment. It would also be very nice if there was a small fenced in area for a dog park, or a place for dogs to play while kids play on the equipment. The park is typically utilized by people on foot, so if parking spaces would somehow encroach on the green space or lead to cutting down trees, that would be tragic. There are plenty of places to park along the edge of the park and on residential streets in front of homes. If the chain-link fence is removed, perhaps some thought should be given to whether we should have three steel reinforced barrier posts installed at that corner to	5/23/2021 10:13 AM

Oxford Park Playground Options

keep any cars from driving into the green space where kids are at play and parents are picnicking on the lawn with their families.

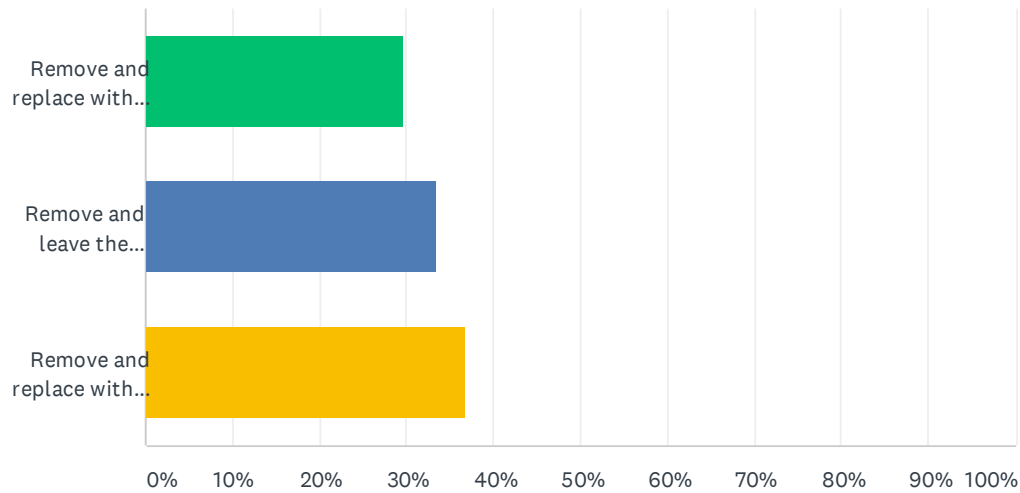

67	Places for parents to sit and watch.	5/23/2021 9:20 AM
68	None	5/23/2021 8:52 AM
69	B&C seem to be geared to younger kids. I think A can also cater to school-aged children. I like the swing options in all 3. Include monkey bars also.	5/22/2021 10:40 PM
70	I like the monkey bars and toddler slide structure on option B. I love the tree house on Option C, but the rest of the design I did not like as much as Option B. Can you incorporate a tree house in Option B? My kids like the house like area under the current play structure, which the tree house would bring back some of those features. Also, we love the baby triceratops that is at Oxford Park now. In fact, my kids call it the Dinosaur Playground.	5/22/2021 9:30 PM
71	No	5/22/2021 8:13 PM
72	More variety and more accommodation for more children in Plan C	5/22/2021 5:41 PM
73	Focus on accessibility, no high slides	5/22/2021 4:42 PM
74	We like the climbing features of B. The other two seem more geared towards little kids.	5/22/2021 4:22 PM
75	No	5/22/2021 4:01 PM
76	I prefer the options where the saucer is closer to other play structures and swings so children waiting will play instead of just hanging around near the saucer and arguing.	5/22/2021 3:45 PM
77	Would like a taller slide which seems to be missing from version 2. A climbing lot like northam would also be nice.	5/22/2021 3:10 PM
78	Lots of climbing stuff	5/22/2021 2:30 PM
79	Can we still have benches/tables to sit. No mulch is very nice. Love the different climbing options!	5/22/2021 12:47 PM
80	No	5/22/2021 11:04 AM
81	More access for children with special needs and adapted mobility	5/22/2021 10:54 AM
82	What is the ground?	5/22/2021 10:43 AM
83	Made out of recyclable material.	5/22/2021 10:14 AM
84	I do not like the orange on the pieces on the playground equipment	5/22/2021 10:01 AM
85	Option B looks like it has the safest options regarding fall risks, and it looks like the most interesting for small children	5/22/2021 8:42 AM
86	I like the all green of Option B but the equipment of Option C	5/22/2021 8:35 AM
87	All 3 plans lack sufficient shade, and none of the options has seating for parents or grandparents, etc., who need to be near small children or who may be tending to an infant. Looking ahead to question C, I will probably have to respond, but I need more information to give a considered opinion.	5/22/2021 8:28 AM
88	Bucket swings should alternate direction to allow for sun angle in sky throughout the day	5/22/2021 8:24 AM
89	Are we updating around the playground? New sitting/eating tables?	5/22/2021 8:20 AM
90	No	5/22/2021 8:05 AM
91	Musical instruments Bells to hit with a mallet A long tunnel for little kids to crawl through	5/22/2021 8:04 AM
92	I loved the baby playground in option C, but overall preferred option B across the board. If there was a way to merge the two, that would be great.	5/22/2021 7:52 AM
93	If there's anyway to place the swings in the shade that would be great that's the one thing that a child is not able to find shade unlike running around on the playground.	5/22/2021 7:14 AM
94	One thing we love about Oxford park now is how shady it is, would love to keep as many trees there as possible to continue this.	5/22/2021 7:01 AM

Oxford Park Playground Options

95	I like the multiple climbing areas	5/22/2021 6:39 AM
96	Monkey bars to be lower in any options. So she's 5-7 can do them without parent help. When they are so high it's impossible for them to reach.	5/22/2021 6:27 AM
97	More sensory oriented play.	5/21/2021 11:43 PM
98	If you could add the music element to Option C that would be the most ideal set up!	5/21/2021 10:22 PM
99	No	5/21/2021 9:54 PM
100	Is this park meant to be primarily for 5 years of age and under? If so, the equipment looks appropriate but if not, it's really small. I think the green rubberized surface is more calming and fits with the environment better than tan or rust colors. There needs to be sufficient shade for the playground which there is now to protect little ones from the sun and prevent the rubberized surface from becoming too hot. Hopefully the existing trees are staying.	5/21/2021 9:34 PM
101	I liked the tension climbing & balance feathers. Would've also liked if there was a taller more interesting slide(s) with this option!	5/21/2021 8:10 PM
102	I would have liked to have seen more climbing rocks on all of them.	5/21/2021 7:23 PM
103	A picnic table would be great for enjoying snack/lunch between time spent playing	5/21/2021 6:00 PM
104	Our family appreciates how shady the park is and hopes this remains.	5/21/2021 5:55 PM
105	Make sure shade is still present	5/21/2021 5:29 PM
106	These are the best you could do?	5/21/2021 5:18 PM
107	Lots of swings	5/21/2021 5:08 PM
108	The swings for 2 at Reed rd park are awesome. I'd love to see them everywhere	5/21/2021 5:03 PM
109	Please keep the trees!	5/21/2021 5:01 PM
110	Monkey bars maybe	5/21/2021 2:58 PM
111	A covered picnic table area would be nice. Please don't cut any of the old growth trees.	5/20/2021 12:48 PM
112	Please keep the trees. That's why we call it shady park	5/20/2021 11:34 AM
113	In lieu of playground equipment which is just fine. Add more swings, picnic tables for family picnics and kids crafts. A covered pavilion would be ideal. Keep baseball field and backstop.	5/19/2021 8:56 PM
114	We love the park the way it is now.... area for babies & toddlers and then area for older children. They love the counter, they love the spiral, the climbing wall.... it is perfect just the way it is..... the only thing the park needs is more picnic tables.... more swings..... do NOT replace existing structures.... they are ideal.... it is a small neighborhood park.... we need more places for family's to sit, picnic or color....	5/19/2021 8:50 PM

Q3 What would you like to see happen with the existing chain link fence backstop?

Answered: 212 Skipped: 6

ANSWER CHOICES	RESPONSES	
Remove and replace with a new chain link backstop	29.72%	63
Remove and leave the corner open	33.49%	71
Remove and replace with a low decorative fence	36.79%	78
TOTAL		212
