Community Center Feasibility Task Force Phase II Resident Survey

| # | RESPONSES | DATE |
|----|--|--------------------|
| 1 | I would only vote against #16. I think UA should be able to build a community center within the Kass development complex at a cost of 55million in bonds. | 11/30/2020 5:22 PM |
| 2 | Taxes are too high already. Should have thought this through before rebuilding so many schools. | 11/30/2020 5:03 PM |
| 3 | no reason | 11/30/2020 4:52 PM |
| 4 | My children are getting older (college and high school) and I'm not sure we would get any benefit from a community center. We are already members at McConnell Heart Health and will continue to use their workout facilities. | 11/30/2020 4:25 PM |
| 5 | Taxes now for the schools is very large, can't and do not want more taxes now. | 11/30/2020 3:48 PM |
| 6 | if there is not enough space allocated for a weightlifting and cardio gym plus a pool. Also, children must be controlled. | 11/30/2020 3:37 PM |
| 7 | Traffic/road infrastructure of site location. I like the idea of the Kingsdale location better, but I worry about the current redevelopment plans and the density of housing and traffic impact. I will honestly vote against the community center and would rather have no center than approve the plan as it's currently presented by continental. I hate the nine story housing plan. Too many people, too many cars, we can't handle that much traffic. Why can't the city buy the property and put ONLY the community center on that location (no housing), why do we have to have all of the high density apartments and other housing? | 11/30/2020 3:03 PM |
| 8 | I'm supportive of both ... | 11/30/2020 2:54 PM |
| 9 | I continue to hear that the UA schools construction budget has gone significantly over. I do not like the proposed construction plans for Kingsdale I think the development is too large with not enough parking and too much added traffic. The wait time at 5 corners is already considerable at busy times of day such as school and work let out, As it is driving and Parking at Lane avenue during busy times is a nightmare. With current Covid conditions of course its not being seen right now I would really like to see how the seniors of Arlington feel about the prospect of their senior center being torn down and being moved in the middle of a overcrowded development. We have no duty downtown area like many other cities with green spaces, walkability, benches and areas to meet and hangout. I don't think anything is being clearly put out there. Why don't you publish all these proposals in the UA news so residents see exactly what's going on In reading the questions going forward it would be helpful to ask those questions in relation to where the center would be because that has a great bearing on the location | 11/30/2020 2:14 PM |
| 10 | Taxes too high already. | 11/30/2020 1:48 PM |
| 11 | The community center and senior center should be supported by the users of both. User fees or memberships should be used to pay for them. The pool requires a significant membership fee so these centers should do the same. | 11/30/2020 1:47 PM |
| 12 | I guess if our income was uncertain, or the community benefits were unclear. | 11/30/2020 1:44 PM |
| 13 | I wouldn't. | 11/30/2020 1:38 PM |
| 14 | My taxes are too high already and I no longer have children in the UA School system. | 11/30/2020 1:33 PM |
| 15 | Increased taxes. I did not vote against both | 11/30/2020 1:25 PM |
| 16 | I don't think the community should be forced to support a tax for a community center. I don't understand how the bonds work, but for the amount of talk there is about needing new tax revenue for the city, taking existing money to fund a community center doesn't seem responsible. | 11/30/2020 1:09 PM |
| 17 | If it didn't include state of the art facility and wasn't located so kids/family could easy access it. | 11/30/2020 1:06 PM |
| 18 | Not needed, ego boost for city manager to be like Dublin. Not needed, would be lightly used, tax subsidy for only a few. | 11/30/2020 1:05 PM |
| 19 | Cost | 11/30/2020 1:04 PM |

|----|---|---------------------|
| 20 | If the design was bad | 11/30/2020 12:50 PM |
| 21 | We have plenty of recreational facilities, both private and public. | 11/30/2020 12:40 PM |
| 22 | na | 11/30/2020 12:39 PM |
| 23 | If my memory serves me right, residents have voted against a center two (maybe 3) times. | 11/30/2020 12:37 PM |
| 24 | I voted against the 30 year tax levy. However, I indicated I did not know how I felt about the issuance of bonds | 11/30/2020 12:26 PM |
| 25 | The construction and operation should be funded without any additional tax dollars. User fees, private donations, and corporate support should pay for this without raising taxes. | 11/30/2020 12:25 PM |
| 26 | Already pay high real estate taxes! | 11/30/2020 12:22 PM |
| 27 | I would vote FOR anything that supports a community center. I wish to voice my concern about the plan for so many apartments in the Kingsdale area. Community center is a better idea. If we don't do the community center, I still strongly disagree with the huge apartment proposal. | 11/30/2020 11:55 AM |
| 28 | I will vote for | 11/30/2020 11:48 AM |
| 29 | The size of the center. Compared to surrounding communities both proposals look small. I'm not convinced the either proposal will meet the needs of the community. | 11/30/2020 11:27 AM |
| 30 | I wouldn't vote against either | 11/30/2020 11:16 AM |
| 31 | Duplication of current and future availability of using the new school buildings' facilities for community use. | 11/30/2020 11:09 AM |
| 32 | I would not vote against. This initiative is long overdue. | 11/30/2020 10:28 AM |
| 33 | If it does not include a senior center. If City did not include handicap access. If the city chose any site other than Kingsdale. | 11/30/2020 10:26 AM |
| 34 | While I support both, I would be against either one if the city/schools offered any tax breaks, subsidies or TIFs to private developers as part of any project. | 11/30/2020 10:23 AM |
| 35 | Putting the center in a place that will cause huge traffic issues | 11/30/2020 10:17 AM |
| 36 | Lack of support of the incorporation of the surrounding areas relative to either site i.e. construction management, pedestrian safety, traffic updates. | 11/30/2020 10:16 AM |
| 37 | I support both | 11/30/2020 10:12 AM |
| 38 | Taxes are already too high | 11/30/2020 10:10 AM |
| 39 | Paying double - increased taxes AND membership fees. | 11/30/2020 10:06 AM |
| 40 | The money is a reasonable amount. Much less than the UA schools levy. I would be happy to have the community center to be built in the old Macy's lot but not by having the developer own the center, which I believe it the current thinking. And I am very against a 9 story building being built on that site. That is far too big for the area. | 11/30/2020 10:03 AM |
| 41 | Hold taxes down. | 11/30/2020 9:50 AM |
| 42 | I am nearing retirement and don;t want my property taxes to increase. | 11/30/2020 9:50 AM |
| 43 | I didn't vote against both. | 11/30/2020 9:49 AM |
| 44 | I'm on a fixed income | 11/30/2020 9:46 AM |
| 45 | The proposed plan for the Kingsdale site is not appropriate. It is way oversized. Saying a 115 foot building (proposed) is similar to a 75 foot building (OSU Medical) really misses the mark . All buildings in this area should be a max of 5 stories. Also, the lack of open green space (open to general use, like the area outside of Market District) is disappointing. We should not be building concrete jungles. | 11/30/2020 9:42 AM |
| 46 | If it was a blank slate, I would build the community center over the senior center, and incorporate nicer senior center facilities into the community center. I understand the process seems to have moved past that, its just my 2 cents. I will support the new community center | 11/30/2020 9:41 AM |

Community Center Feasibility Task Force Phase II Resident Survey

with my vote however the task force conceives it. I would also support membership fees to finance the center, to remove the burden from those who won't use it.

| 47 | I wont vote against them | 11/30/2020 9:37 AM |
| 48 | raise in taxes. UA just built all new schools. The facilities the new schools offer should cover the children's needs. | 11/30/2020 9:27 AM |
| 49 | personal finances | 11/30/2020 9:18 AM |
| 50 | I would probably not ever vote against an education or community project that would benefit our community. We need to stay updated to attract businesses and maintain the value of homes. | 11/30/2020 9:14 AM |
| 51 | n/a | 11/30/2020 9:04 AM |
| 52 | I would like to see additional work done on traffic study and impact of a community center and high rise building that is being planned on the surrounding communities as currently what is proposed is much too large for the area. I also don't think that a TIF should be given to the current builder if property taxes are going to be raised for residential property owners. | 11/30/2020 8:59 AM |
| 53 | No new debt | 11/30/2020 8:51 AM |
| 54 | we already pay high taxes. The new school on top of this is pricing UA too high. What other avenues can we decrease for city spending and budgets! | 11/30/2020 8:49 AM |
| 55 | I would be ok with the tax raise if that includes use of the community center. | 11/30/2020 8:44 AM |
| 56 | Tax increase | 11/30/2020 8:29 AM |
| 57 | Inefficient use of land\ theta hikes | 11/30/2020 8:20 AM |
| 58 | If the city allows the massive development planned for the Kingsdale site to be a precondition for the community center, I would vote against it. I am very opposed to the scope of that development. I believe that the developer should pay a large portion of the costs of building the community center if that abomination is allowed to go forward. | 11/30/2020 8:17 AM |
| 59 | My property taxes are already going up again in January due to the triennial reassessment | 11/30/2020 8:17 AM |
| 60 | I'm for these issues 100% | 11/30/2020 8:13 AM |
| 61 | After the pandemic, I likely will no longer have to commute downtown daily which might encourage me to move farther away because I can get a bigger house with good schools for less money and lower taxes and I think many other people are in the same situation which could make it hard for UA to keep residents if the taxes are too high. | 11/30/2020 8:03 AM |
| 62 | T E A | 11/30/2020 8:01 AM |
| 63 | I fully support both! | 11/30/2020 8:01 AM |
| 64 | increase in taxes | 11/30/2020 7:53 AM |
| 65 | The school district has already taken all of my money and I had to refinance my house twice in the last 5 years to get additional money in my budget to pay for taxes and repairs. My house is falling apart too, and I had to budget for it. The city and school district should have saved money if it wanted to replace its older structures. | 11/30/2020 7:44 AM |
| 66 | My taxes are already too high and I am not sure I trust the city will follow through on this. | 11/30/2020 7:38 AM |
| 67 | I put for, but I would also want to ensure that the tax revenue is handled fairly with schools, so as not reduce income for the school budget | 11/30/2020 7:33 AM |
| 68 | Extra \$\$\$ going out as we try to recover from this pandemic. Try asking some of our very wealthy residents and former residents to fund. | 11/30/2020 7:31 AM |
| 69 | don't want taxes to increase. | 11/30/2020 6:51 AM |
| 70 | Against new taxes. | 11/30/2020 6:48 AM |
| 71 | Unable to vote | 11/30/2020 6:45 AM |
| 72 | That you are wanting the home owners to pay to construct it, then you will want to come to us | 11/30/2020 5:57 AM |

again to pay for future expenses for it to operate it. It will still cost us to use it. Why haven't you asked theYMCA to build it?

| 73 | Not enough specific details of plans such as parking considerations | 11/30/2020 4:29 AM |
| 74 | Don't know enough about | 11/30/2020 2:56 AM |
| 75 | Location and unsure if I would have any use for such a facility | 11/30/2020 12:09 AM |
| 76 | If it didn't have all the programs like swimming and senior programs | 11/29/2020 11:57 PM |
| 77 | Our children will enjoy the availability of the community center | 11/29/2020 11:37 PM |
| 78 | I grew up in a city that had just completed such a community center in my childhood. It was a great place for our family and community. | 11/29/2020 11:34 PM |
| 79 | Regarding #15 vs #16: Either way, money spent for something that I feel will likely not be used by a large UA population, could be put to better use elsewhere, serving needier issues or a larger UA population. Overall, activities at the community center would take away from tax-paying independent fitness, food, arts, and recreation businesses already existing in UA and serving UA residents, adding insult to the already "COVID-injured" businesses. If ever there was a time to SUPPORT our own, it is now. It's not a time to put struggling upstanding hard-working citizens out of business or further strain their efforts. Every service offered at the community center is also offered within UA boundaries with the exception of pool and basketball court, both of which are available within a 15-minute drive in any direction outside of UA. Furthermore, office space for meeting places are going to be AMPLE after quarantine. Commercial real estate will have an over-abundance of empty office spaces soon. Due to COVID teaching many business owners their employees can efficiently work from home, they will require considerably less office space. If you build a community center, it will be adding to the vacancies already soon-to-multiply in the market. | 11/29/2020 11:16 PM |
| 80 | increased taxes | 11/29/2020 11:15 PM |
| 81 | The only reason I would vote against the community center is if I felt that it did not provide enough services to meet the needs of different populations (seniors, swimmers, teens). | 11/29/2020 11:08 PM |
| 82 | I answered yes to both funding options yet a get this question on why I'd vote against?! Was this survey created by a 5th grader? Seriously, not a good look. | 11/29/2020 10:59 PM |
| 83 | Our taxes are already among the highest in the state and we do not have some of the amenities offered in most surrounding communities. These should be able to be funded out of the existing tax base. | 11/29/2020 10:58 PM |
| 84 | The dollars should come from existing tax revenue. | 11/29/2020 10:57 PM |
| 85 | I supported both financing options. | 11/29/2020 10:53 PM |
| 86 | If the the Community Center was not multi-generational | 11/29/2020 10:52 PM |
| 87 | We don't need a community center. We can use other revenue on streets and lighting improvements. We can also use other revenue to pay police and fire pensions instead of taxing property owners. | 11/29/2020 10:38 PM |
| 88 | If the building accommodations and community center services did not match or exceed other community centers in Ohio. If the cost out weighed the value. If the city continues to neglect their role in generating additional revenue for the city to either offset or supplement the high property taxes. business centers at the "entrance" of our community are a complete embarrassment: Fishinger/Riverside drive might as well be a neglected part of Whitehall, Tremont Center is just horrible. I can't believe how brazen the city is to start flagging home owners to update their homes, paint garages, etc while the post office windows are covered in bird and bug feces. I know you've turned down residential heavy proposals for that area (which is good) but there needs to be some urgency and an effort in recruiting business who might tenant a development. If it was too senior (age) focused. Our city is so outdated. We cater to the elderly so much everything looks elderly - the streets & sidewalks; parks with zero identity or attraction (Greensview/Sunny95 is terrific and draws people there) - need to do something with all the dog crap at these parks where older people let their dogs run and then won't clean up after them; schools have been very outdated but you've done great overhauling those; | 11/29/2020 10:29 PM |

| 92 | I will vote for the community center in whatever format it is proposed. | 11/29/2020 10:19 PM |
| 93 | Taxes are being raised too much | 11/29/2020 10:19 PM |
| 94 | I would vote for them. We need a community center where our residents can workout, socialize, and teach our children healthy habits. | 11/29/2020 10:15 PM |
| 95 | I would love to see UA have a community center/ Senior center and I think the former Macy's location is ideal. I would use it. My reason for voting against these issues is that the community has already weighed in on this issue once and did not support funding a community center. I continue to be concerned about rising property taxes for my household and my neighbors and feel that our tax dollars past and present need to be used to fund vital city services and needs. Many other communities have partnered with YMCA's that serve as community centers with wonderful exercise facilities. Has this been explored ? If not, why not ? | 11/29/2020 9:57 PM |
| 96 | I think UA needs both | 11/29/2020 9:47 PM |
| 97 | If the facility cannot be fully supported by bonds and/or tax levy at current estimations. | 11/29/2020 9:47 PM |

| 100 | I wouldn't want to assume that it is more important than the undue hardship it could potentially cause for other residents. I would want to make sure the impact on all taxpayers is considered. | 11/29/2020 9:37 PM |
| 101 | Don't need community center or any more tax increases. Work with what we have | 11/29/2020 9:36 PM |
| 102 | I support a recreation center however it must be accomplished | 11/29/2020 9:34 PM |
| 103 | The community center should not be built without evidence that it can be self sustaining once it is built. | 11/29/2020 9:30 PM |
| 104 | I choose to vote FOR both issues. | 11/29/2020 9:26 PM |
| 105 | Taxes would increase which I am totally against. Both locations are terrible. Use one of the city parks. Locations without increasing our taxes. You people are always very eager to spend others money. | 11/29/2020 9:22 PM |
| 106 | If they require more than a 3-story building. | 11/29/2020 9:12 PM |
| 107 | The city does not need this white elephant. Taxes are too high currently. Fix the existing sidewalks, sewer and other infrastructure needs . Grandview has better sidewalks than UA. The developers are running this city and ruining it. | 11/29/2020 9:09 PM |
| 108 | Size and nature of proposed private development on Kingsdale property. Developer's plans would negatively impact any civic facility utility and especially adversely impact attractiveness and access by seniors. | 11/29/2020 9:09 PM |
| 109 | I don't know why we need a community center. We are the premier suburb in central Ohio. Other communities have built community centers to attract the kind of people who live in UA, but people still keep coming to UA. House prices keep going up. We don't need to compete with other communities, they need to compete with us. Also, fuck Compass and those horribly ugly houses they build. | 11/29/2020 9:06 PM |
| 110 | Taxes are already too high. | 11/29/2020 9:05 PM |

| 135 | Taxes are fair but don't need to go higher to support community center. | 11/29/2020 8:23 PM |
| 136 | These are uneasy financial times and we are on a fixed budget. | 11/29/2020 8:20 PM |
| 137 | Living on fixed budget | 11/29/2020 8:20 PM |
| 138 | This is very expensive and not necessary when core infrastructure is neglected | 11/29/2020 8:19 PM |
| 139 | The city of UA has several private options for health clubs and swimming, while youth activities are covered by schools and parks / rec. The proposals I've seen for the one at Kingsdale where you include the center in a 9 story mixed use building is nonsense. This has not been clearly stated in any of the surveys or task force communications. Long term costs for operations and maintenance have also not been shared. | 11/29/2020 8:18 PM |
| 140 | Because you want to build a 7 story high rise building on the old Lazarus / Macy's Kingsdale site. I would be in favor of KEEPING the old Lazarus building at Kingsdale & making it into a community center. That should have been done long ago when it was first vacated. There is a kitchen in that facility on the 2nd floor, there is an escalator, large spaces on the 1st floor and 2nd floor for various uses, and plenty of parking. I am NOT in favor of making UA into another high rise community like many cities have. You have already destroyed Lane Avenue. You are getting ready to destroy Riverside Drive where the post office is located. You are destroying the ambiance of UA. We do not want all of these high rise apartment buildings in the UA area, and all of the traffic congestion. And, we do not want any roundabouts!!!!!!!!!!!!!! It is becoming another New York city, full of high rise buildings, that will turn into slums in 20-40 years. We | 11/29/2020 8:11 PM |

have lived in the same house in UA for over 55 years and are very sad watching the beautiful town of UA being turned into a commercial environment, being taken over by OSU (and I am a undergrad & law school grad of OSU) , and these BIG developers, and other real estate companies coming into UA buying up the houses, and tearing them down to build these BIG homes on a small lot, and sometimes putting 2 to 3 houses on a larger lot....that happened on McCoy Road near the golf course. Very disappointing!

| 168 | I don't believe our property values would benefit enough for a ROI with this tax increase. Especially during covid. We all know our taxes will be going up again for additional funds for the schools. I vote no for a tax payer funded community center. It's great if a private company would want to build a rec center, but not tax payer funded. | 11/29/2020 7:34 PM |

How could the grade of the land be a surprise during the build? Total incompetence at tax payer expense. | 11/29/2020 2:05 PM |
| 188 | Nothing in the past has turned out to be what was promised. Tremont pool is managed as to when city needs us to use instead of when it fits a resident's lifestyle, Thompson Park ballfields and public/private partnership have no accountability in what was originally presented. Ball fields continue to eat up more of the green space and never remove fences; for years lights have been left on when no teams are playing and past hours when promised to be in operation. No consistency when the staffing changes. Additionally, would vote against anything Frank Kass promotes. | 11/29/2020 1:12 PM |
| 189 | Only voting against an increase | 11/29/2020 11:56 AM |
| 190 | The Community Center at Kingsdale would come with close to 450 apartments, which is conveniently not mentioned in this survey. I feel that this survey is very misleading, including the questions regarding the site change to the municipal building. Also, I would rather see our school ratings improve a little and see our tax dollars at work in regards to education before wanting to spend money on a community center. Building the new schools isn't going to magically make our ratings come up, we need to invest more money into our schools first. | 11/29/2020 11:42 AM |

| 202 | I am fully in support of a community center, but I do not support it as part of the Continental development. The proposed structures, specifically the CC building, are too high for the surrounding neighborhoods. I am concerned about the precedent that this will set for the remainder of the triangle as well as the Bass building area. Slippery slope. Why have a city code if we don't intend to follow it? A community center at Kingsdale, as currently proposed, reads more like a benefit for the development residents instead of the entire community of UA as a whole. I would love to see a community center put forth in a well thought out way that is large enough to benefit all UA residents. As currently proposed, it seems like an afterthought and like it will be difficult to access and utilize. Membership fees are also expensive, especially considering pool fees are expected to go up this year as well. | 11/28/2020 9:24 PM |
| 203 | If there isn't proper traffic studying done with adequate recommendations presented. | 11/28/2020 8:38 PM |
| 204 | The city enjoys spending taxpayer money for projects that do not maintain or improve core infrastructure of the community. I often wonder if some of these projects are designed to enhance resumes rather than meet actual community needs. While my property taxes have increased 35% in 13 years, the basic infrastructure in my neighborhood has deteriorated. Interior residential streets need new curbs and asphalt. Storm sewers are overwhelmed. Maintenance of fundamental infrastructure is being put off for expensive pet projects with limited community desire or value. Priorities are out of order. Senior Centers are struggling to attract Boomers, who have more choices than ever. Is a very expensive white elephant being proposed? I believe it is time for a reality check. | 11/28/2020 7:58 PM |
| 205 | I wouldn't vote against the issues. However I am adamantly against a 9 story behemoth at Kingsdale. Please do not ruin one of the main intersections in our city. | 11/28/2020 7:40 PM |

| 209 | If the community center ends up at Kingsdale site with 360 apartments. I feel this will limit my access to the community center due to overcrowding. I do like the concept of senior living next to the community center for our older residents. Great idea! I will not support the community center next if it is located next to 360 apartments. Could we consider fewer condos where residents would be owners opposed to renters? | 11/28/2020 6:17 PM |

| 213 | This is an amenity that the citizens cannot afford. The operating cost of such a facility would be significant and we already are facing significant tax increases to support the new schools and to fund phase two of the rebuilding program. | 11/28/2020 4:41 PM |
| 214 | The community center, as I've heard it described, would essentially be a health club. If there was a viable business case for it it seems a private company or YMCA would put one up. Further, I imagine our new \$280 million dollar high school will have state of the art facilities that will sit unused for large portions of the day. Why couldn't those facilities be made available to the public when not in use by the students? People who want these types of facilities have options to access them today. We don't need tax dollars going for this purpose. | 11/28/2020 4:34 PM |

| 249 | A) The cost B) Government should not compete with business. The center would offer services one can pay for in the private sector. C) People who would not have any intention of using the facility should not be forced to pay for it. D) The city frequently claims that as a land locked community, valuable real estate should be utilized to generate revenue. No revenue would be generated by a community center, just the opposite. In addition to the up front cost, the cost of running the facility could easily reach an additional million dollars per year. E) Tax Incremental Financing (TIF) proposed to fund the project would divert funds from the school system. The use of TIFs in UA is nothing more than a shell game and cynical attempt to trick voters. In two or three years when the school system comes to the voters claiming they're poor and the kids will suffer, few voters will understand that the school system OK'd the robbing of their piggy bank to help fund the community center. The fact that those in charge of this proposal are fully aware of this fact is perhaps the saddest reality regarding who the citizens let run this city. | 11/27/2020 12:32 PM |

| 261 | I do not think the city is upfront on the truly looking at the location of putting it at Kingsdale along with the new development of apartments and mixed uses there. It is not feasible, it is not fair to bend all the zoning codes to accommodate something that should not go there. If it was just the community center going in there it would be supported by more of the community than along with a ridiculously huge development that is not needed, does not fit with the community, should NOT be supported by BZAP or Council, and will just completely make the roads, city services, and traffic awful in that entire area. Residents will entirely avoid the whole area, rather than got to it. | 11/27/2020 9:51 AM |

| 263 | I it is not necessary. Many residents are members of scioto , others clubs, and Osu RPAC (through their employment or school). A community center in UA is not feasible nor is it needed. It will have zero effect on property values. | 11/27/2020 9:27 AM |

| 265 | Another raise on taxes | 11/27/2020 7:12 AM |
| 266 | I don't understand this question. I am actually supportive of the issues. A single building (community center) at Kingsdale would be PERFECT for the community. I am sad to see a proposal of three tall buildings to be built there. Way too crowded and crammed. Comunity center not a major part of the design. Very disappointed. This is a huge missed opportunity for the city. | 11/27/2020 5:59 AM |

| 295 | I don't want a rec center that I'd have to pay to be a member at or use; when there are plenty of country clubs and what not around us; I don't feel the city essentially needs it. | 11/26/2020 1:03 PM |
| 296 | As a retired senior citizen, the property taxes, garbage fees and city income taxes are becoming unbearable. The proportion of tax revenues falls too greatly on the long term residents of Upper Arlington. | 11/26/2020 12:41 PM |
| 297 | City Council does not ever get good input from its residents. They are very short-sighted and don't think about what is good for the community, or if it is even a good direction for UA to go. We are not Dublin, Worthington, or New Albany. We are landlocked, and I understand that makes development harder. But we are a bedroom community; we are an older neighborhood, and we are losing all our charm and history in the name of development. | 11/26/2020 12:31 PM |
| 298 | Cost to run and maintain center, residents have already invested so much into replacing all of our school buildings at once | 11/26/2020 12:05 PM |

| 300 | Our taxes are keep going up, one member of our household has lost work because of Covid, we are approaching retirement age in the next 5-10 years and want to remain resident, not be taxed out of our community. | 307 | Taxes have increased so much over the last few years and the UA schools will soon be putting a tax levy on the ballot. Do not like the city's handling of the Macy's site with Continental. | 11/26/2020 10:38 AM |
| 308 | Every government project of this nature always exceeds budget by twice, plus ongoing costs exceed projections. The community center would serve a small percentage of UA residents and most facilities are available elsewhere where those using the facilities are the ones paying for them. If this project were viable an investor/entrepreneur would develop this project. How about requiring space in one of the new Lane Avenue developments | 11/26/2020 10:31 AM |
| 309 | If they don't have things I would use | 11/26/2020 10:21 AM |
| 310 | The community just passed a major school building and operating levy (wrapped into one) and the county just reassessed property values resulting in major increases for many Arlington residents. Adding another obligation in the midst of a pandemic and statewide recession is a tone-deaf triple-whammy move. It fails to recognize the hardships that some in the community are experiencing. Delay this conversation for at least two years. | 11/26/2020 10:08 AM |
| 311 | The ongoing maintenance and management of a \$60 million depreciating asset is concerning. As we are seeing from the schools, buildings have a specific practical lifespan. | 11/26/2020 10:01 AM |

| 318 | Do not need a community center. Plus the city appears that it mismanages its funds anyway. Roads need repaired, storm drainage needs updated long before a community center. | 11/26/2020 9:11 AM |
| 319 | I adamantly DO NOT SUPPORT 9story 500 plus apartment building At kingsdale period! If that's the trade off -NO the "community center" would be the apartment fitness center -seniors get short changed...continental's development is NOT AN ASSET to UA and buying off council with a CC is a farce....you are destroying what makes Upper Arlington special and why we live here -we didn't vote to urbanize and densify UA-traffic is already bad on Lane -municipal bldg location is VERY hard to access regularly -especially to walk or bike to -dangerous , fast intersections - | 11/26/2020 9:10 AM |
| 320 | We don't need a community center. We need to attract more businesses to generate tax revenue rather than increasing priority taxes. It will cost a homeowner more to have a community center than to join and support a local gym which we have plenty of. We don't have plenty of available land to waste on a community center. | 11/26/2020 9:08 AM |

| 322 | As we age in place and our incomes become fixed, we hope to remain in Upper Arlington. Therefore, we cannot continue to support rising taxes. You must choose: a community center or the schools. To me the schools are the most important. As former teachers, my husband and I will always support the schools. We cannot support both, especially since Compass Homes is tearing down houses in our neighborhood and artificially inflating the our property taxes at reevaluation time. | 11/26/2020 8:57 AM |
| 323 | Two reasons: Real estate taxes are already too high and will get higher due to school issue and reappraisal. I think, unlike other communities, there are adequate commercial opportunities for seniors who want to pursue a fitness routine. | 11/26/2020 8:45 AM |

| 341 | Higher taxes | 11/25/2020 11:32 PM |
| 342 | The idea of a community center is exciting but will vote against it because of Increased taxes for construction AND operating costs. Even if bonds are repaid with existing revenues, some other need will be sacrificed to pay for it. Therefore, taxes will be raised to support those other needs. Nothing is for free. Feel lied to about the new school building costs. We are now facing a levy for increased operating costs due to the new buildings. The school building costs and tax increase were WAY TOO HIGH and financed for such a long period...ridiculous. The schools will need to be renovated before the debt will be paid off! Seniors need a new space but many are now tapped out on taxes to support anything new. The cost of the new school buildings is exorbitant and unnecessary. The programs and teachers make excellent schools, not the brick and mortar (and high end materials/designs). Please quit catering to those who have blank checks in this community! Not everyone lives south of Lane and belongs to SCC. We have needs with roads, infrastructure, support services and safety which again will suffer because of the school tax increase. I can no longer support ANY new levies/taxes. Too bad because I always have. I no longer believe that UA acts as good stewards of our money. Very sad because I love to see new developments and the updating of this city to keep it vibrant and moving forward. | 11/25/2020 11:30 PM |

| 344 | I do not want to have my taxes raised for a service that could be provided by private companies. Especially when we do not know how long it will be before it is safe to utilize a community center due to covid. Or how much it will cost for membership after the tax money pays for it. I wish families would support local businesses like McConnell health for health and wellness, or one of the many local yoga studios etc. I don't see the value in paying for a community center when our schools are going to require additional levy dollars in the near future. | 11/25/2020 11:28 PM |

| 366 | Who is responsible for staffing and maintenance of the facility? If dues will support, what would the monthly fees be and will there be enough participation to cover costs? I currently have a gym membership so do not plan to switch. Google maps lists 9 fitness facilities in UA. These are tax producing entities...what will happen to them? My gym is out of the community. I like getting outside of the bubble. I have participated in the park and rec activities and facilities have been adequate. Didn't the residents pay to rebuild the natatorium at the high school? Can't this be utilized for public use? Can't school gyms and classrooms be used in the evening? What about the municipal building for classes. Libraries and Burbank. For our small community, we offer many options. With the rising property values (good thing) we are squeezing out the 'average' income earner. We need diversity. Adding additional taxes will push potential residents to surrounding communities. The initial survey questions for the facility were very swayed toward a participant to seem to agree to a center. I did not appreciate this. I attended a popup...such a small sampling of residents to have spent resources to have gone so far down this path. | 11/25/2020 8:35 PM |

| 396 | Do not raise taxes | 11/25/2020 5:57 PM |
| 397 | I don't believe most of us would use the community center. I believe it would be used by a relatively small percentage of the city's residents. I think the idea was pushed through without a true random sample of what the overall community thinks of the idea. We are a family with college-aged children and have many friends in the same life stage. Not one of the families we know was surveyed. I also know of no seniors who were surveyed, even though we know a number of seniors in UA. | 11/25/2020 5:41 PM |

| 416 | Land locked site in landlocked community. Explain and justify how traffic flow gets to site for project, residential , commerce and office areas. Massive new traffic on roads leading to site are 90% residential. This is not a small project that will attract local traffic only,. Then there is the mess known as 5 points they which most of the traffic has to go. With the 11 story at Lane/ N. Star, the new builds on Lane and Riverside-Fishinger (plus other available sites in that area, including Tremont Center) the increase in congestion has to be considered in the overall community plan. Any justification of this, and upcoming developments, has to be taken in total, not just the subject site. To reiterate, traffic to Kingsdale will enter at those points and traverse primarily residential streets to a central site. Project of this size affects the entire community, not just Kingsdale and immediately surrounding streets, considering that all streets immediately around are built to the sidewalk. Same comment about Lane Avenue | 11/25/2020 4:30 PM |
| 417 | I get the arts and senior component. I do not get why the city needs to offer a gym in direct competition to numerous workout facilities in the community. If Kingsdale was at the top of the list, why didn't we buy it and sell off a part to developers? What is the long term cost of Kingsdale when you include annual rent payments forever? No projected income and expense detail has been shared. Not only will it cost a ton to build, but why should I pay for its losses if I do not use it. Property tax revenue is bad choice unless free to all or fees reduced based on amounts of property tax paid. Again competing with businesses is not the purpose of the city. | 11/25/2020 4:27 PM |

| 444 | We are truly short of funds. I am losing 1200.00+ month in loss of funds due to COVID. It will take a few years to recoup. Our house has been reappraised, more taxes and levies. . . | 11/25/2020 3:10 PM |
| 445 | I would vote for either | 11/25/2020 3:08 PM |

| 451 | Taxes too high now | 11/25/2020 3:01 PM |
| 452 | If the amount is strictly for building and not operating expenses. Should that amount be more and significantly raises my taxes I'd probably vote against it. The new schools not including operating expenses or site work is upsetting. Such a significant increase to seniors and then before they are even completed they are putting a new levy on the ballot. | 11/25/2020 2:59 PM |
| 453 | I feel that this project is important to the future of the community. | 11/25/2020 2:58 PM |
| 454 | Honestly taxes are so high already and for what we get it is starting to not seem worth it to live here. Rank in schooling, athletics, park space, facilities, heck even the library services are not matching up. | 11/25/2020 2:56 PM |
| 455 | I do not believe a community center is a good use of city funds. There are many more important and pressing needs for city funding. There are significant sewer issues leaving homes flooded after significant rainfall. Half of Upper Arlington doesn't have sidewalks or street lights, important safety features that all residents need. A community center is a nice to have but not a must have. I would support spending far less to refurbish the senior center than to provide a private gym for city residents that a large portion of the population probably won't even use. | 11/25/2020 2:54 PM |

| 462 | I hate that private entities benefit (tax breaks, synergy, offing risk to, etc) from the public while the public gets stuck with risks. (I'm thinking of info I've read about arenas, including in cols, for example.) People/private entities slam government but then want lots of govt \$ to do anything at all. This makes me favor the MUNI BLDG plan even tho I see many advantages to the other site. And even tho the other site would be more convenient for me. Just hate public coffers getting fleeced by private entities. Which they will if it's a joint venture at Macy's site. | 11/25/2020 2:41 PM |
| 463 | There are already multiple businesses / alternatives for most of the proposed services offered. The City would just be competing with existing private businesses that offer these options, in a much less efficient manner, adding to the already high tax loading that residents pay. | 11/25/2020 2:38 PM |
| 464 | I don't know | 11/25/2020 2:37 PM |
| 465 | I didn't say i would vote against both. But additional taxes is a decisive factor. | 11/25/2020 2:34 PM |
| 466 | There are 3 public pools, UAHS indoor pool, plus Swim & Racquet Club, plus Scioto C.C. all in Upper Arlington. Lots of health clubs around the area. Covid-19 has changed the people interact. I doubt we'll ever go back to big events with lots of people. We should utilize our school buildings for more community activities, especially since they are being renovated/replaced. Taxes are very high in UA. There should be a way of limited the growth of taxes for seniors, so the taxes don't push them out of the community. | 11/25/2020 2:34 PM |
| 467 | Taxes are too high and we don't have street lights, storms sewers, sidewalks, high speed internet access like Westerville, | 11/25/2020 2:33 PM |
| 468 | Infrastructure such as storm and sanitary sewer need updated. Flooding and sewer backup was a major problem in UA when I moved here years ago. Improvements were made and we now pay a maintenance charge for upkeep. However, with all of the new development in UA, many homes are again experiencing flooding and sewer backup. The city doesn't consider it a problem apparently but many homeowners this past spring wouldn't agree judging from the piles of damaged belongings that had to be trashed. | 11/25/2020 2:33 PM |

| 472 | our current facilities are adequate. we are overburdened with taxes . the city is competing with private enterprises gyms swimming pools clubs etc . there aremany facilities that are undrused and if opened weekend and evenings would accomodate all acitivities once biult taxpayers are again burdened with an enlarging work force that lives off of our taxes . | 11/25/2020 2:23 PM |
| 473 | cost | 11/25/2020 2:22 PM |
| 474 | School and property taxes are ridiculously high in the community. Residents of age are being taxed out of UA. | 11/25/2020 2:22 PM |

| 476 | Taxes already too high. | 11/25/2020 2:21 PM |
| 477 | First of all, thank you for your hard work. In my opinion, the overall concept should remain atonomous to the city and be sustained through membership, corporate partnerships, or room naming rights. Macy's is an idea spot although cost prohibitive. As a matter of fact- the site would be better suited for a multi-use property, commercial/residential. We need more commercial business. Therefore, I would like to see the municipal building restructured and redesigned, to reflect our providential city. However, this is my opinion and in my view- I am not certain this is an actual "Need" of the city. | 11/25/2020 2:17 PM |

| 490 | No reason- our community needs a community center. | 11/25/2020 2:05 PM |
| 491 | Does UA really need this type of facility? I think not! The city should invest in maintaining the senior center now not waiting until the roof falls in. Perhaps UA should partner with other agencies lik the ymca to build a facility so that the costs are shared. I am certain that joining the community center will involve a hefty monthly use fee as was proposed with past attempts for build ing acommunity center. Bottom line is this idea has been rejected by the community several times so put it to rest now! UA should be trying to get more retail busiesses at Kingsdale and less offices,pracey apartments and community centers. We could use a dedicated bike trail and the additional retail at Kingsdale would make UA a more walkable community and more sellable to young and old alike. Please think of the future and let go of the past ideas. | 11/25/2020 2:05 PM |

You also get 2.5% of my income un-capped ... so when I do well at my job, the city already benefits. We are also WAY behind other cities in offering up this amenity, so it should be funded with current money vs raising money for a new idea. | 11/25/2020 1:49 PM |

| 608 | Taxes too high already. Community center not needed because many private facilities with same amenities near by. La fitness, scioto, swim and racket, lifetime fitness, OhioHealth McConnell center, Ohio state rpac, ua schools. We don't need another facility that will be underutilized and subsidized with taxes in perpetuity. | 11/25/2020 12:56 PM |
| 609 | I am against the 2nd option concerning raising taxes as this seems to be a frequent thing UA does and then seems to mismanage the money. | 11/25/2020 12:54 PM |
| 610 | Property taxes, especially during COVID economy is a terrible sell. It will be voted against and I don't want to lose the community center. It should be funded by bonds and/or membership fees only. | 11/25/2020 12:54 PM |
| 611 | If a community swimming pool is included in the new facility I would consider it a waste of taxpayer money. Swimming pool facilities at UA High School and First Community Village can be used instead and save money. | 11/25/2020 12:54 PM |
| 612 | Don't know | 11/25/2020 12:54 PM |
| 613 | A community center would be a perpetual economic drag on city finances. It will never be close to self-supporting and will never be able to compete with full-featured athletic facilities in or proximate to UA that are priced at \$10/month. The community is too small for such a facility and it will be yet another tax drag on the community. | 11/25/2020 12:53 PM |
| 614 | We really need a community recreation center in UA. | 11/25/2020 12:53 PM |

| 619 | People should be willing to pay for the things they want. We need to support our community. | 11/25/2020 12:52 PM |
| 620 | The programming and spaces in question, if needed, should have been incorporated in all the new school buildings which were just built. It is insane to have invested in such single purpose buildings, which are not well-utilized after hours and at breaks, when clever design could have accommodated all currently contemplated uses at lower cost and better overall viability. | 11/25/2020 12:52 PM |
| 621 | I am incredibly against the TIFF for Kingsdale. TIFF's are for underdeveloped areas, not prime real estate. The idea that that Continental is the ONLY company that would develop that property is ridiculous. And the TIFF dumps too much cost onto the schools which is unfair. I | 11/25/2020 12:52 PM |

support a Community Center and would help pay for it but not if the school board approves the TIFF.

| 624 | I fully support the measure | 11/25/2020 12:51 PM |
| 625 | I need to understand what the cost would be to use the facility in addition to the potential property tax increase. Our taxes are so high right now, it is hard to justify additional taxes. | 679 | I do not think it is the City's job to create and offer a Community Center. There are more important things to spend our tax money on at the moment. Our taxes are too high. Let a private company offer these things. | 11/25/2020 9:26 AM |
| 680 | Cost to residents | 11/25/2020 9:18 AM |
| 681 | The City is in cahoots with the School District. When the City starts leading with what tax payers want then I'll support city initiatives. Bathrooms are out of variance and y'all don't do anything bc you want your damn TIF. Stop scratching backs and do your jobs. Your just as responsible for failing our kids now too. Get out of public office if you cannot serve your constituents. | 11/25/2020 9:17 AM |
| 682 | Distrust of city and waste of money | 11/25/2020 9:07 AM |
| 683 | You are giving Frank Kass, who is a multi-millionaire, this city on a silver platter. You are deceptively polling the citizenry with a horribly-worded survey. You are not being straight with the citizens about how much benefit we are giving to a developer in this project. Start speaking straight and giving CLEAR and CONCISE information. Quit coaching things in relationship to a community center when the possibility is tied up in a tax giveaway to a rich developer. The way this administration communicates with the city is shameful. Be direct. This is a ruse to get a developer tax breaks. You are not communicate with the community in a clear way. Stop the games. | 11/25/2020 9:04 AM |
| 684 | You said nothing about operating cost. You only asked for opinion on paying for construction cost | 11/25/2020 8:47 AM |
| 685 | Our community really needs this. Other surrounding suburbs have centers and our family has to travel further and pay extra to use those facilities because we do not have one in UA. I think a center would bring the community closer together and provide more activities for my family. I strongly supported a center in 2002 when it was on the ballot and was saddened when it failed. Ever since, I've been hoping that the issue would be raised again. | 11/25/2020 8:35 AM |
| 686 | I will vote against any issue that would substantially raise our taxes. They are already forcing seniors and those on limited incomes out of the community. | 11/25/2020 8:33 AM |

| 695 | Taxes. We pay enough taxes. Young families and seniors can not afford more taxes. | 11/24/2020 10:52 PM |
| 696 | Use of site should be for the city and residents, not for profit of private sector. Also need to seriously pay attention to teen/high schoolers group interests and other facilities (skate or bile park, for instance) | 11/24/2020 10:40 PM |

Also, the city should stretch to build both centers need to be state of the art and to accommodate all future needs for the intend purpose of the facility. A conservative approach will make me less likely to support either plan. | 11/24/2020 9:30 PM |
| 706 | I have supported the city for many years (40 +) but these plans penalize seniors with limited incomes. This, plus the taxes levied on the last tax increase show me that the city has little regard and respect for it's senior citizens. | 11/24/2020 9:30 PM |
| 707 | I would only vote against raising property taxes | 11/24/2020 8:55 PM |

| 709 | I do not feel that either space is viable for the planned use. It will be used by a small number of residents but paid for by all. I would rather see privatization such as the YMCA | 11/24/2020 8:48 PM |
| 710 | I feel strongly that the kings dale location is better but will vote yes either way a community center is a missing asset in our community | 11/24/2020 8:45 PM |
| 711 | Agree w/bond issue. Believe Macy's property already bought by contractor / investor. The citizens of UA are once again being lied to. The agreement has already been made, building at Macy's location - investor gets office space to rent, apartments...income galore! We lose again - listen, we only want a community center!! | 11/24/2020 8:35 PM |
| 712 | I believe that I will have to pay for the community center in some way, like taxes, but will be priced out of being able to use it because of the anticipated monthly fees. If taxes go up at all (related directly to the community center or other reason), I will not have any extra funds to then use the community center. I don't like the idea of having to contribute to something that I don't feel is essential, and may hurt similar businesses, without being able to take advantage of the services provided. | 11/24/2020 8:34 PM |
| 713 | Property taxes are no longer deductible from federal income taxes (SALT cap) | 11/24/2020 8:34 PM |
| 714 | A large increase in property taxes | 11/24/2020 8:23 PM |

| 716 | Cost at this time | 11/24/2020 8:05 PM |
| 717 | Raising taxes | 11/24/2020 7:54 PM |
| 718 | the community has told city council numerous times we don't support building a community center with tax dollars yet you keep repackaging the community center and continue to try to use tax dollars for it. There are plenty of local facilities for everything the proposed community center offers and if residents want these services they can get them at no cost to taxpayers - for one example at premier at sawmill on the north edge of the city. The library buildings have been and can continue to be used for meeting space. As the libraries move more and more to electronic distribution of their materials the buildings will soon be available to be repurposed. At that time one of the buildings could be sold to a private entity to convergt into a fee based "community center". | 11/24/2020 7:47 PM |
| 719 | Nothing, for 100%, regardless of cost or increase, it's needed. | 11/24/2020 7:35 PM |
| 720 | Community center was voted down previously. We are already paying for all new schools and they should have space for programming (as they've always done). Additionally, why didn't the city maintain the senior center in the first place? This seems to be a commons theme from the city: let building deteriorate then ask residents for more taxes to build new. Let a private developer come in and create something in that space that will bring tax \$ INTO the city rather than raise our taxes even higher. COVID is not the time to be discussing spending, as businesses may be closing which means less tax money for the city Your timing is really bad, and this is not a necessity for the city of UA. If there is no space for programming in the new | 11/24/2020 7:24 PM |

schools, then someone did a bad job planning. There are numerous private gyms nearby and their annual fees would be less than the increase in taxes you're quoting. Additionally, i hear the Dublin community center is not well used or liked by the community, and it's a money pit for the city

| 738 | I want whatever is built to be biologically and ecologically friendly -solar and wind power on buildings so it is functional 'off the grid' in time of crisis in the community, minimal EMF exposure to clientele, a construction design that minimizes possible damage from a tornado or major flooding so that the building could be a potential shelter for people in the community in a time of crisis. | 11/24/2020 2:43 PM |
| 739 | Design.... One option I saw put the Sr. center on 2nd floor. With the event of Covid-19, I think the Sr. Center would be better accessible on the ground floor although elevator would allow access. Many Sr. who now attend the Sr. Center may be challenged to get to 2nd floor. Elevators wear out over time (Library, my church) expensive to repair, etc. Perhaps the design with pool on 1st floor is cheaper ?. | 11/24/2020 2:40 PM |
| 740 | Don't need it. Cost needed to be from investment. Not residents | 11/24/2020 2:19 PM |
| 741 | I would vote FOR a community center. I totally support the idea of a community center. | 11/24/2020 2:18 PM |
| 742 | They could incorporate ALL of this except a senior center at the new High school. Hours would be limited at the pool and track, etc for the public, but we already have 3 pools for the summer. Indoor pool at the high school could be run Early am 6-8 for senior swim and laps, and then open again to public in the evening when there are no HS activities scheduled (meets). | 11/24/2020 2:18 PM |

| 751 | Poor design of community center and uses. Kingsdale's overall design is a mess, with buildings plopped into spaces with no concern for flow or use. It's a mini mall disaster. We don't need anymore mixed use spaces with more offices and medical practices. We need a space that enhances and serves the community. If it's not designed and planned well, I won't vote to fund it. | 11/24/2020 12:32 PM |

| 758 | Too many buildings and uses incorporated into the site. Not enough parking for everyone. | 11/24/2020 11:16 AM |
| 759 | Too many apartments are planned for Kingsdale site which will negatively impact the neighborhood. I might support the site if the number of apartments are kept to 200 or so. | 11/24/2020 11:01 AM |

| 762 | I am against this issue because our taxes should be going towards bettering our parks and overall aesthetic of UA- which is falling behind other communities in Columbus. | 11/24/2020 10:21 AM |
| 763 | I would be against the inclusion of several hundred apartments in the Kingsdale plan. I would be ok with some apartments being included but don't want Kingsdale turned into a giant apartment complex which will greatly increase traffic around my house. I also think the applicable tax increase should be kept reasonable but I'm not opposed to all tax increases that come with the community center. | 11/24/2020 9:58 AM |
| 764 | The proposed Macy's development includes too many apartments/businesses and will result in too much traffic and parking issues. Less apartments in the plan would make me fully support it. | 11/24/2020 9:52 AM |

| 769 | Having a monstrous development associated with the construction of the community center which would greatly affect the Kingsdale area. | 11/24/2020 9:09 AM |
| 770 | Taxes are too high now. It is almost like the City is trying to force older people out unless they are very well off or on a Government pension that includes a cost of living increase. As far as I know, no community center has paid its own way. | 11/24/2020 9:06 AM |
| 771 | Waste of money | 11/24/2020 9:05 AM |
| 772 | I wouldn't -(those were not my responses above). I would support the bond initiative but would be a (tentative - need more information) no vote for a tax levy knowing how many UA residents are struggling through the pandemic economically. | 11/24/2020 8:45 AM |
| 773 | Lacking has been information on how a community center would be self supporting. Concerns that future funds from the city or residents would be required to support the center. Would the center be owned, staffed and maintained by the city. Could funds designated for streets or sewers be used for the center, causing delays in other projects. | 11/24/2020 8:42 AM |

| 784 | I wouldn't, we are in great need for the CC. I think it needs built with or without a tax increase | 11/24/2020 6:59 AM |
| 785 | Taxes are too high already. This is an affluent city, it can leverage other funds. | 11/24/2020 6:48 AM |
| 786 | Location - please do NOT build this at Kingsdale. The Tremont Rd location is a superior design (much better use of space) and it makes sense to include new spaces for city offices and police etc.. . | 11/24/2020 6:08 AM |

| 792 | I am opposed to taking a private commercial property that is in the process of being developed for a public-use facility that could be located in one of the community parks that would be more appropriate/fitting for such a facility. Tearing down our highly functional civic center is even worse. I feel the exploratory committee, for some reason, decided these were the only 2 locations viable without any other citizen input. This committee of interested citizens made it clear that one of our numerous public spaces was out of the question and the only real location to consider was the abandoned Macy's site, which has already been sold for re-development to a private enterprise. Years ago we (UA citizens) overwhelmingly voted against this site for a community center. Once again city council seems to be falling for the same argument without regard to what the majority of citizens actually want, and not just a few interested folks that will only accept a community center at the Macy site. | 11/24/2020 12:01 AM |

We are likely putting our kids into private schools next year as we are very displeased with the schools at this point and Dr Imhoffs leadership. We will not pay more taxes to the schools based on how they are currently preforming. | 11/23/2020 10:29 PM |

| 813 | I don't have enough information about the cost of using the community center or what other community services will be impacted. Diverting school district income to decrease costs is unacceptable. There are plenty of gyms and pools in the immediate area for residents to use at their own expense. | 11/23/2020 10:04 PM |

| 820 | I do not like how the community center is being incorporated into the proposed mix use development at Kingsdale. The development is not in keeping with the feel of Upper Arlington. I am concerned that traffic will be an issue and I am concerned with the congestion in and around the proposed site location. Ther is too much going on. Typical UA. If there is a small area available, screw variances and community character, build it to the edge and as high as possible with zero architectural character. | 11/23/2020 9:51 PM |

| 828 | MONEY!!!! We are retired and the school levy last year was "over the top". I like a great community but do not want and cannot spend the money that the community wants. | 11/23/2020 9:32 PM |

| 831 | I'd vote for the center | 11/23/2020 9:08 PM |
| 832 | I don't know what a bond is, or what it means for the city budget. The tax increased mentioned in the previous question seems reasonable | 11/23/2020 9:06 PM |
| 833 | Lack of commitment to install high quality swimming for fitness AND a warm water therapy pool for seniors and others that would benefit. | 11/23/2020 9:05 PM |
| 834 | We do not need to raise taxes. Figure out a different way. Our taxes are out of control and should be re-evaluated | 11/23/2020 9:05 PM |
| 835 | Not needed for UA. Real estate taxes are quite high and there will be other requests to support other needs. If suggested that schools, parks, library or infrastructure needed increased I would support those requests if justified. Thus, I want to save my vote for increased taxes for these needs, and not waste my money on a useless community center. | 11/23/2020 8:57 PM |
| 836 | I said I would vote FOR them! Very confusing question. | 11/23/2020 8:51 PM |

| 845 | High cost. Tax burden on the home owners | 11/23/2020 8:14 PM |
| 846 | I would prefer a bond levy to a tax levy. | 11/23/2020 8:08 PM |
| 847 | I would love to have a community center in theory, but am concerned about the cost. Not just for construction, but operating costs as well. What happens when there is an economic downturn and people don't buy memberships. Is the city then going to have to chip in more money for operations? Construction cost is one thing but i need more information about operating costs. Also, as I recall, the cost for the community center at Kingsdale years ago was \$25 million—the Andy Geiger project. It has doubled in cost? | 11/23/2020 8:06 PM |

| 850 | The increase in taxes is driving people out of UA. More and more families move in when their children are school aged and move out as soon as the kids graduate from UAHS. This is changing the dynamics of the Community for the worse. | 11/23/2020 7:58 PM |
| 851 | I would vote for them. Not sure this question is working properly. Yes to the community center - UA is completely underserved without one. | 11/23/2020 7:41 PM |

The City approves emergency exceptions to building codes and traffic plans/requirements (e.g., UA Gateway) because of what they say are the financial needs of UA. How can the City, with a straight face, say we can afford bonds or more taxes to pay for the luxury of a community center when we cannot afford what already exists? | 11/23/2020 5:50 PM |
| 881 | Schools already draw too much from property tax. I keep paying and haven't moved and want to support the community but it creates too big a portion of my mortgage payment | 11/23/2020 5:48 PM |
| 882 | We don't need it | 11/23/2020 5:45 PM |
| 883 | If it was not in a good location. Needs to be walkable/ bike-able for people/ kids. Money possibly.... would we also be paying a monthly membership to use it. If so, how much? | 11/23/2020 5:41 PM |
| 884 | We have already voted twice on a community center. This is not the time to ask people to rehash this issue. The pandemic is creating enough stress and uncertainty without having this issue dredged up again. It seems that the planning is being done while people are distracted with other issues, which is not appreciated by this taxpayer. Remember the brand new schools aren't even finished yet! | 11/23/2020 5:37 PM |

| 894 | It is not needed with the surplus of other private facilities in the city and surrounding area already. | 11/23/2020 4:44 PM |
| 895 | For a city of our size, with no population growth possible, with the limited space, and the limits of improving the infrastructure, I don't think a community city is a plausible idea. In addition, city council and city managers have been complaining about revenue within the city for 15 years. If revenue is such an issue, the city needs to do what the rest of us have done for years. Prioritize your spending. You can't have everything you want. The city needs to live within its means. | 11/23/2020 4:44 PM |
| 896 | It has been voted on before and rejected so you're trying again with a new group of people | 11/23/2020 4:42 PM |

| 913 | Extra property taxes, but that's not that much extra. | 11/23/2020 3:54 PM |
| 914 | Hiding the fact that the Macy site would be up to 9 stories high with hundreds of apartments. No consideration of surrounding residential neighborhoods. Excessive traffic and parking issues! Very poor choice that you are trying to hide even in this survey. You make it sound like only a community center would be built on the Macy site. Shame on you all!! | 11/23/2020 3:37 PM |
| 915 | Our taxes are so high and although I understand the need to fund initiatives like these I can't understand why the answer is always raising taxes for new projects (ie: schools, community center, etc.) Is there no other funding stream? Can we not open our community up to more commerce/businesses who may help with the load? | 11/23/2020 3:35 PM |
| 916 | The benefits would go to a very small portion of the community | 11/23/2020 3:35 PM |
| 917 | Tied to Continental constructing high rise apartment buildings on the Macy's site. Too dense and too much traffic! | 11/23/2020 3:32 PM |

| 928 | Our taxes are really high (maybe not compared to other northwest suburbs, but compared to the DC area, where I'm from and where home values are twice as much). We need to try to use existing space more, such as the brand new schools. UA is already too exclusive; I oppose a facility that would cost so much money and only encourage people to stay in a 2-mile bubble and not interact with people who don't live in UA | 11/23/2020 3:12 PM |

| 930 | I would vote against the apartment building and 7 story high rise bc it does not fit in with the community and would be an eye sore | 11/23/2020 3:06 PM |
| 931 | Property taxes are already very high; and now you are adding more taxes ... this would make it be very difficult for individuals on a limited and/or fixed income be able to continue to live in their homes. And with COVID19, there may be more people who experience covid19 complications that may lead to an early retirement, or increased therapy expenses, etc. This does not seem like the right time to build a new community center, or to do the large development at Macy's. It took about 5 years to sell all the condos at the 5 story tremont rd. high rise (that was built around the time of the 2008 recession.). Are the developers really going to be able to sell all the condos and rent all the apartments? Will there be services for seniors living in the senior housing, or is it just apartments for very independent and well seniors - those people might rather stay in their own homes. Also, the unknown from the fall out of the economic damage from the pandemic makes it seem like this is not the right time to be making these decisions. | 11/23/2020 3:03 PM |
| 932 | Taxes already too high | 11/23/2020 3:02 PM |
| 933 | Our taxes are already high. We are paying for a ridiculously high priced school rebuilding plan and there is nothing wrong with the senior center buildings. Who thinks buildings need to be torn down instead of remodeled and renovated? Do they want to tear down all old houses south of Lane Ave? | 11/23/2020 2:58 PM |
| 934 | current and past mismanagement of UA's financial resources for the purpose of meeting standards of other similar communities | 11/23/2020 2:56 PM |
| 935 | The voters have turned down the issue of a community center repeatedly. | 11/23/2020 2:56 PM |

| 943 | I am a senior. I use the current center. Would love to have a pool and better access. Raising my taxes is something I would have to think hard about. | 960 | Going forward with this amenity and the request for funding for it during COVID and a reduced income period with other concerning economic projections for recovery demonstrates a lack of sensitivity and "tone-deafness" on the part of the city while other core infrastructure still needs to be fixed/repared. People who may be a supposed target population for the facility won't be able to afford to live in Upper Arlington using the funding approaches the City proposes. Why not find a partner who already does this instead of "greenfielding" and building it ourselves ? | 11/23/2020 1:52 PM |

| 965 | Taxes are high enough. | 11/23/2020 1:45 PM |
| 966 | I would vote for both these issues. The cost would have to be way out of line for me to vote against. This is the right time to make this move in UA. | 11/23/2020 1:44 PM |
| 967 | Taxes in UA are outrageous as they are. To pay additional taxes for a community center would be egregious. | 11/23/2020 1:38 PM |
| 968 | The people who care most about this cause are the least likely to use it. Between other community centers in surrounding communities, public pools, country clubs and private memberships the people of UA simply won't use it. | 972 | I chose to vote for them. | 11/23/2020 1:27 PM |
| 973 | I feel like the building of a community center should NOT be tied to apartments being built at Kingsdale Was that property publicly bid to developers? Why does the building have to be so high? Why Apartments and not Condos? Who decides who gets to build it? Shouldn't this all be a bidding process? | 11/23/2020 1:24 PM |
| 974 | It comes down to the basic question, what do you WANT vs. what do you NEED. A new community center is not NEEDED. If community center is wanted, funding should come from USER fees, not general public, new tax or existing revenues. | 11/23/2020 1:22 PM |
| 975 | Many people a hurting financially right now and the taxes in UA are already extremely high. The school district is about to ask for another teacher levy and still needs funds to rebuild the middle schools and Burbank. It is a lot to ask all at once. I would really like a community center but would like to see it at least partially funded by the large amount of construction currently planned in UA. | 11/23/2020 1:20 PM |
| 976 | I would vote against a levy as our property taxes are so high now. UA is really becoming an unaffordable/exclusive community where socioeconomic diversity cannot exist. \$18 per \$100,00?! That's so misleading . . . I doubt there's hardly any property in UA valued at that amount. | 11/23/2020 1:18 PM |

Why do they need to be separate/ segmented? | 985 | Not sure the city is spending money wisely | 11/23/2020 12:59 PM |
| 986 | Riverside location with park access needs to be considered. YMCA partnership? Kingsdale—the Center of UA will be senior oriented— what is attracting young families to UA— no green space. Developing a community center along Riverside Drive plus of having easy access to the river and bike paths would attract young families. We are the only City that has river access and we have no vision to look at a community development of river/park/center/restaurants opportunities. Restaurants, events, festivals could include the river... where is the creativity in our vision? A senior community center in the middle of a major housing development is unattractive please, please include our parks in the community center. | 1004 | Well my responses didn't indicate I would vote against both of these. My concern is that taxes are currently difficult for me as a single person of moderate income. Will I also have to pay a membership fee to use the center, in addition to taxes? That would be a problem. | 11/23/2020 12:27 PM |
| 1005 | Long term costs if resident memberships don't meet expectations and operational expenses need supplemented with future tax increases. | 11/23/2020 12:26 PM |

| 1013 | First I think having living spaces for seniors only is a terrible idea. That alone would make me second guess voting for a senior center. We have asked so many times for more affordable housing for families and this could potentially be a way for that and for young professionals to be BRINGING IN AN INCOME TAX. Why would we pay all this money and then have an entire group of people living there that aren't bringing in money to the city?? | 11/23/2020 12:19 PM |

| 1019 | I don't know that a community center membership fees would be something everyone in the community could afford. I'm afraid it would turn into something similar to sawmill. | 11/23/2020 12:10 PM |
| 1020 | I probably wouldn't vote against but my new property valuation was crazy high and I'm retired. | 11/23/2020 12:10 PM |
| 1021 | I'd like to know more specifically how the funds would be used and ensure a portion would go toward safety measures in the surrounding community, such as sidewalks on Trentwood and Fishingier. | 11/23/2020 12:09 PM |
| 1022 | N/a | 11/23/2020 12:08 PM |
| 1023 | I do not oppose a Community Center. If a portion of the community wants it then let them pay for it with annual dues, like the Country Club. I believe it is not possible for one center to properly serve 35K households. The center will be over-crowded and under serving. I do not agree with the city's attempt to lump the senior center in here as well - the current Senior Center needs to be upgraded. One Center cannot handle all the young children, the seniors, the parents, the apartment dwellers, doctor's offices and other offices. I do not want my taxes increased for this purpose, I will not vote for it and I will not use it if it gets built. I also request that you rewrite this survey with more straight-forward terminology. Have you realized it appears as if you have purposely tried to confuse residents? Please read question #9. It is one of many questions which needs to be rewritten more clearly. Let's look at what you are trying to accomplish and how rewriting this survey may serve us all better and get answers that matter. | 11/23/2020 12:08 PM |

Community Center Feasibility Task Force Phase II Resident Survey

Question 1 asks if residents think you are moving in the right or wrong direction, yet there is no reference stated. The right direction according to what? You have left us to wonder if the council is deliberately trying to confuse and sway residents. I certainly hope not. Thank you

| 1027 | These needs are being fulfilled by private entities today. The proposed dense development does not take into consideration the burden to the residents. A large part of the appeal of living in UA is the convenience. If I have to sit in traffic, that appeal is lost, and I might as well get more house for my money in Dublin or New Albany. I already struggle with the lack of throughway on Lane Ave. Additionally, the price proposed for the Kingsdale site is not in line with the value. Having tax payers supplement the builders profitability model is not right, let the market drive the value. Land here in UA is not growing, the plans are not fiscally responsible based on the need. | 11/23/2020 11:59 AM |
| 1028 | This issue has resurfaced several times over the years and each time has proven that it is not economically feasible. The people that want a community center are not willing to fund it. | 11/23/2020 11:59 AM |

| 1043 | Upper Arlington is becoming too expensive to live in compared to neighboring communities with newer homes. Our excellent school system has been what keeps our property values high...people with the desire and money can and have been joining local facilities to meet the needs a community center fulfills | 11/23/2020 11:50 AM |
| 1044 | There is no need for another gym in the ua area. There must be 20 gyms near ua already. The city does not need to be in the business of running another gym. | 1054 | It should be included in this survey that the Kingsdale location would only be viable if there are 467 apartments built on that location as well. The community as a whole needs to know that this is part of the decision for the Kingsdale space. | 11/23/2020 11:45 AM |
| 1055 | Our taxes have been raised plenty over the past several years and we cannot afford to pay any additional taxes | 11/23/2020 11:45 AM |
| 1056 | not sold on the "bond" idea. Definitely no increase in taxes. Perhaps a "membership fee for anyone under 65 yrs old? | 11/23/2020 11:45 AM |
| 1057 | I would vote for! | 11/23/2020 11:44 AM |
| 1058 | N/A | 11/23/2020 11:44 AM |
| 1059 | After the disaster of this school year and assuming next, there is no way the postponed school levy will pass next year. Now you want to build a community center and a new senior center? How many seniors actually use it? When will they be allowed in? This city has wasted so much money it's embarrassing. Eventually people will tire of it and move out esp if they can pay lower taxes and for private schools to have their kids there 5 days a week and still save money in the long run. This community is really going down hill, it's not the pride and joy it used to be. | 11/23/2020 11:44 AM |
| 1060 | I don't want a bunch of additional apartment buildings as part of the project. | 11/23/2020 11:44 AM |
| 1061 | If it was included in another high rise construction design (part of the proposed senior living center at Kingsdale) and or included construction of more buildings or offices with no benefit to residents (such as another bank). | 11/23/2020 11:44 AM |
| 1062 | Higher taxes. | 11/23/2020 11:43 AM |
| 1063 | The city needs space for everyone to use and gather, to be a community there's needs to a be common place, residents shouldn't have to travel to neighboring communities (with lower taxes!) For superior amenities. A multi use and multigenerational facility benefits everyone from scout troops who need weekend meeting space to preschool swimming lessons and functional fitness class spaces for the parks and rec department who otherwise is pereptually held back in available offerings due to appropriate space constraints. | 11/23/2020 11:43 AM |
| 1064 | I would prefer the community center to be a free standing building and not on the top floor of a building for other uses. This is not an answer to #17, I just didn't have any other place to say it. | 11/23/2020 11:43 AM |
| 1065 | Property taxes in UA are too high already. We need to stop thinking we're still "growing" as a land locked community and be more fiscally responsible with what we have. We're driving senior citizens and empty nesters out of our city because of the high taxes. At the same time, our schools are falling behind Bexley, Olentangy, Grandview, Dublin, so are we investing in the wrong things? Shiny buildings and sports vs good teachers? | 11/23/2020 11:43 AM |
| 1066 | cost to over taxed property owners | 11/23/2020 11:42 AM |

| 1069 | N/a. I think this is a necessary and lacking part of our community. | 11/23/2020 11:39 AM |
| 1070 | This project and survey are linked to an apartment project that is not mentioned. Bait and switch request for information in the survey. | 11/23/2020 11:39 AM |
| 1071 | I'm concerned about the city become a landlord for private businesses. | 11/23/2020 11:39 AM |
| 1072 | We have plenty of fitness options and the services of a community center can be provided by private, not public, offerings. Our taxes are high enough. | 11/23/2020 11:37 AM |
| 1073 | Raising Taxes vs. Bond issue | 11/23/2020 11:37 AM |
| 1074 | The city already has incurred significant debt from re-building the schools. We haven't even started to pay that debt off | 11/23/2020 11:36 AM |
| 1075 | Too costly; historically residents have voted against a community center. | 11/23/2020 11:36 AM |
| 1076 | I am for both. | 11/23/2020 11:34 AM |
| 1077 | None. I would vote for any measure in support of building a community center. | 11/23/2020 11:34 AM |

| 1080 | Hesitancy with causing more traffic on residential streets. | 11/23/2020 11:32 AM |
| 1081 | Not a fan of TIF and property taxes are too high already. | 11/23/2020 11:31 AM |
| 1082 | Taxes are too high already Let businesses private sector like Lifetime Fitness on Henderson handle this area. They do a much better job than the public/government For example I have been working out at the senior center for 7 years. Now senior center closed virtually all year. I paid an annual membership fee to UA.plus UA taxes Lifetime is open Lifetime Fitness-no annual fee. Lifetime better facilities Lifetime better equipment Lifetime longer hours Lifetime open more days UA we suck at this type of project | 11/23/2020 11:30 AM |
| 1083 | N one | 11/23/2020 11:29 AM |
| 1084 | Not convinced of need | 11/23/2020 11:28 AM |
| 1085 | Taxes are too high now. I realize their will be more taxes coming to even more school improvements. Dont like the idea of taking funds from other projects to use to build a community center. Many people who live in Arlington have many other options for fitness. | 11/23/2020 11:27 AM |
| 1086 | Property taxes are out of control!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!!! | 11/23/2020 11:26 AM |
| 1087 | Cost, and concern that the City could run the Center well and on budget. Little benefit for the expense, and low overall utilization. | 11/23/2020 11:26 AM |
| 1088 | The CC needs to be bigger and better than the surrounding municipalities. The proposed design is nice, but it needs a Larger pool, more than just two swim lanes, more party rooms, the model seemed to only have 1 dedicated. More ground level outdoor green space/splash pad. | 11/23/2020 11:26 AM |
| 1089 | Static income | 11/23/2020 11:26 AM |
| 1090 | Don't need the new facilities | 11/23/2020 11:26 AM |
| 1091 | huge increase of school taxes | 11/23/2020 11:26 AM |
| 1092 | We are in a pandemic with huge financial implications, we just spend 100s of millions on schools, we don't need to buy land that could be privately developed, it's not fair to make all pay for this when not all will use it, | 11/23/2020 11:25 AM |
| 1093 | I voted for | 11/23/2020 11:25 AM |
| 1094 | would not vote against | 11/23/2020 11:25 AM |
| 1095 | 1) I don't believe city leaders when they say that the community center will not result in a tax increase. 2) Taxes are already too high. 3) Macy's is not an appropriate location for 500 | 11/23/2020 11:23 AM |

| 1101 | taxes are already high | 11/23/2020 11:15 AM |
| 1102 | I would only vote against raising taxes once again. We are already paying higher taxes for the schools. It would make more sense to have some reasonable fee structure to use the facility. | 11/23/2020 11:15 AM |
| 1103 | Using only taxes to pay for project | 11/23/2020 11:15 AM |

| 1115 | If the project included residential or multi family I would vote against it | 11/23/2020 11:07 AM |
| 1116 | I would not vote against, and firmly support building a community center in Upper Arlington. | 11/23/2020 11:06 AM |
| 1117 | Not a proper government function | 11/23/2020 11:06 AM |
| 1118 | I'm pretty supportive of a community center so I don't currently see a reason not to support it. | 11/23/2020 11:05 AM |
